@Computershare

We're sorry for any confusion caused earlier today regarding the format of the recent GameStop "stock split" and have deleted the tweet. We will be adding an FAQ (shown below) that explains how we processed the split at computershare.com/us/becoming-a-...

How did Computershare process the GameStop 'stock split' in July 2022?

GameStop effected a 4 for 1 'stock split' through a 3 for 1 stock dividend, whereby on July 21, 2022 three additional shares were issued for every share held at record date, giving each shareholder a balance of four times the number of shares. Trading in the 'split' shares started on July 22. Computershare issued direct registration holding statements showing the 3 for 1 stock dividend distribution, giving the holder a balance of four times the number of pre-'split' shares to reflect this.
