We'll just told everyone the other day I'm transferring all my Schwab holdings for more DRSED GME, now I'm selling all the remaining LRC on Coinbase for more GME. Don't get me wrong I like the LRC but I believe it's going to take a huge hit before it rebounds.

See you Apes on Uranus!!

Ken Griffin you better hide, we are coming for everything. You'll be lucky to live in a cell when we are done with you.

PS and what ever happened to the dude who was suppose to eat a jar of mayo for no tweet?
