# Forget GameStop and AMC: Buy These 2 Growth Stocks Instead

Unlike with many meme stocks, there are some solid fundamentals behind these investments.

Meme stocks **GameStop** and **AMC Entertainment** are flying high again with their shares up over 30% in the past month while the **S&P 500** has risen by a more modest 6%. But rather than getting caught up in what has been a volatile cycle involving these two stocks over the past year, there are better, more sound growth investments that you should consider for your portfolio.

**Jazz Pharmaceuticals** ( **JAZZ** **3.30%** ) and **Alibaba** ( **BABA** **-3.17%** ) are two stocks that I would buy before even considering taking a chance on GameStop or AMC. Their businesses look promising over the long run and the stocks trade at modest earnings multiples.
