Hello apes! I'm a maple ape currently in the GME DRS process. Does anyone know if I'm able to buy/sell shares in computershare after my shares settle in CS? I'm transferring from Wealthsimple and was told it would only be around 1-2 weeks for the shares to actually transfer to CS but I don't know how the account creation works or whether I'd have access before I have gotten my actual certificate.

Also I should ask this before the price hits phone number digits but how does one sell shares as a Canadian with CS?

Thanks for the help!
