Hey everybody. Euroape here. I've asked IBKR to DRS my shares on 10/18/2021. They've left my IBKR account on 10/26/2021. Now, two and a half months later, I'm still waiting for any message from ComputerShare. I start to wonder if my shares are gone to Nirvana. I know, snail mail takes forever and everything, but the longest time for it to arrive that I've heard of was around 8 weeks or something. Is this still normal? Or is did the ship that was supposed to bring my letter maybe sink to the ground of the ocean never to be found again? Is there any way to contact CS without having an account? GameStop.
