I just want to ask a few questions for clarification...

Was it legal or illegal for the OG WSB crew to screenshot their GME position and publicly display them?

If so that makes sense why this sub doesn't allow it.

let me ask another question?

Is it legal or illegal for collusion around a specific DATE and STRIKE to form a colossal gamma ramp that touches the moon?

This is not financial advice, just a question that was hard to get a straight answer too. I am also not a cat.
