So as some of you know, I have recently found a link between GME and our favorite insider...KYOU. I have posted passed graphics/decodes showing this connection. Here is a possible new one.

Gamestop twitter account dropped this tweet at 4:00 today at market close. It was just a gif of Sonic The Hedgehog. As I do so often with Gamestop tweets and DFV tweets, I decided to see if there were any connections to drops from our favorite insider.

I found one that looked pretty relevant. The question is, what are they trying to tell us? I read the blurb linked to here in the drop <https://www.dni.gov/index.php/ctiic-who-we-are/leadership>

but didn't learn much other than Tonya Ugoretz was succeeded by Erin Joe as director of the CTIIC.

But seeing that our favorite insider is essentially telling us that Ugoretz learned that the Chinese were connecting to HRC's server, it seems she may have some inside information that could prove to be very valuable.

So why do I bring this up? Honestly, I have no clue ■ I just found what appears to be another connection like I have found before with Gamestop tweets to KYOU drops. I usually find more connections than just 2 but that is all I could find with this one.

That being said, if this is a legit connection, we may start seeing Ugoretz in the news.

Perhaps she will oversee cybersecurity for Gamestop?

Time will tell.
