Unfounded connections between 9/11 and GME?

This looks like forum sliding and attempts to discredit Apes with associations to fucking nonsense theories.

I've read about illuminati, the sinking of the Titanic, and 9/11 in the last couple of days.

Let's not get distracted.

There are real conspiracies with actual evidence. The criminality of the hedge funds and complicit banks is extreme and demonstrable. We can't get distracted from that.

EDIT: to which ever of you dick heads who got me banned for 3 days for "sexualisation of minors" for the sentence "paedophiles exist", there's something wrong with you, get help.
