\$GME I like the stock - I like the 'BUY' button - I like to DRS! No fucking dodgy broker is going to take away my 'BUY' button this time..... As we know once a Computershare account is live you can 'BUY' directly and **as far as I am aware they can't be manipulated like the dodgy brokers can** \- so it's BUY, BUY, BUY for me from now on - all the way to computershare! #staystrong
