If you still have never DRS'd after seeing the crime by the DTCC or brokers, what are you waiting for? You've worked SO hard to buy and hold your shares! Why take any risk of losing your tendies? At least DRS a small % of your shares so your broker can't totally screw you. Do your part to make history and lock the float!

We're happy to help if you have any questions, concerns, or problems.

Keys to locking the float quickly:

1. \*\*We need to educate the masses outside of Reddit what DRS is, why they should do it\*\*. There are tons of GME holders out there! ■

2. Apes with money tied up in \*\*"other investments", consider converting those to GME and DRS\*\*. What other investment could possibly compare to GME?!? Even IF others can squeeze, they can't squeeze like GME and only GME has a massive turnaround plan.

"But Miller I don't want all my eggs in one basket. That's why I have other basket stocks." ... Well, the only reason those other basket stocks MIGHT go up is because they're tied to GME, so your eggs are still in one basket (at best)!

3. DRS your IRA with no tax event.

4. Apes with shares in \*\*Etoro, T212, and Freetrade : think about selling and re-buying elsewhere!!\*\* It's the only way to DRS with them! These 3 brokers will not transfer to another broker nor will they DRS. Why in the heck would you think they have shares?? They simply take your money and pay off your bet. Please don't trust them! Seriously, \*\*go read their TOS\*\*. (Link at bottom)

#Lock the float!!! DRS 100%. Don't give hedgies "one more day"

#Changing the world is what's at stake!!
