So I just looked up the term power brokers. Make a long story short. A Power Broker basically leads Clients, Friends and other groups to invest in what they deem profitable. So basically the same thing they accused Reddit of doing and tried to prosecute for but made legal by the same people who tried to prosecute Reddit of doing with GME. I just love how the system built by the Corrupt that only works for the corrupt... The whole system needs rebuilt for everybody and not just the already rich.
