Is\_self: True

Since the bots and shills are perpetually downvoting important information and manipulating my feed to hide the things apes need to see, I invite all Glory Hodlers to upvote, crosspost, screenshot, and even cut and paste their favorite posts of all time and give a big fuck you to our invisible visitors!

PS: Hey, Stevie and friends—Just know that, try as you might to avoid being held accountable for your crimes, you're getting VERY close to understanding just how long and hard apes can hodl on. You might even use the word "squeeze"! Also, I've made some new friends. And believe me when I say—hedgies are fuqd! Happy trails, you human bags of shit! And good riddance. Get ready for the coup de grace!

Cheers! And happy upvote everything day!
