

Title: Does someone have a source for all historical data for trade halts on GME since, say, 2019?

I've tried finra, nasdaq and SEC but I can't figure it out. Anyone got a link? Info on halts by security just has to exist, somewhere.

Why am I looking? I want to personally compare some of the random FTD and RegSHO rules with trading halt info from GME up to now to serve as a guide.
