Alright please hear me out.. I know this is going to get pushback and that's expected and fine

But I have a solid theory on when DFV returns (and how)

Let's go back and time and notice there's a huge lapse of time where he isn't active on twitter

<https://preview.redd.it/h0kmjqssg4v81.png?width=461&format=png&auto=webp&s=ba5fbc11d46c1674e7fa8129c406ca6125cc72f1>

See he was gone from April 16th to June 1st last year

# Ok don't worry this is based on a lot more than dates

April is also when he stopped posting to reddit [<https://www.reddit.com/user/deepfuckingvalue/posts/>](<https://www.reddit.com/user/deepfuckingvalue/posts/>)

sort by new

no comments either

And then he returns to Twitter.. just Twitter.

I think he's telling us two things. 1) He's not coming back to Reddit (probably) 2) He's coming back after a hiatus in June (and to Twitter etc.)

Ok Ok this is nothing right.. \*\*these are just dates who the fuck cares BMB?\*\*

# Strap in, here's where it gets wild

Let me take you back the when GME went mainstream

**\*\*It's Jan 26th, 2021\*\***

GME High 150, Low 80

On this day Elon Musk tweets this

The very next day 2 days

GME tops out over 500

**\*\*\~Feb 10-18 '21\*\***

DFV posts this a week leading up to the GME hearing

Red Tesla 1 week before the hearing.. eluding to something here with the whole red tesla into space

More back and forth same day between Musk and DFV

DFV is eluding he had to go away for a while, but will come back in June-ish maybe and to 'twitter'

at a time when Musk is most relevant

# Now I know people are about to get tilted with me

Because I'm going to say some stuff that might be wildly unpopular in this community

My only response is, that's your right to do so, but

# Do your own DD, don't trust anyone (or news) including me.

Elon helped perpetuate the GME situation to the mainstream with a specific plan in mind

What was his plan?

Prior to the GME spike after his tweet he was being called on by DJT jr to make a social media network

Elon starting buying shares in twitter (as per the filing)

As this time, the initial paperwork for TMTG, the big tech alternative platform was filed

Musk laid out the situation for a political realignment between all apes and paved the way for another GME 2.0 situation

What he is doing now with Twitter is no coincidence, he is exposing their corruption and they aren't going to sell to him under any circumstance. They will burn twitter to the ground before handing it over.

Some of you are too young to know about occupy wallstreet, but something like this happened already during the financial crisis and people came together in New York to 'fight' this corruption

John Stewart has attempted to co'pt the GME movement and narrative by giving it positive coverage and then immediately doing insane woke identity politics to drive apes apart

Do not fall in this trap

All of these woke companies like Netflix, TWTR, and Disney failing is no coincidence

DFV needed time for GME's fundamentals to catch up to its price and that's why he's inactive imho

He will return soon (maybe June like I showed above) and to Truthsocial, imho

We will see

I've got my DWAC lottery tickets

Do not believe the fake news on DWAC, there is so much more to this DD and Elon than what I have said here

You can see my post history for starters

Good luck
