With hundreds of thousands of emails written to the OIG, with this paper trail and proof of text (reaching out), they will be forced to Audit the SEC, which in turn will force the SEC to Audit GME shorting.

The stock price is dropping. Buy in, average out, average down or Hodl more... then email ASAP.

The Office of Inspector General (OIG) is an independent office within the U.S. Securities and Exchange Commission (SEC or Commission) that conducts, supervises, and coordinates audits and investigations of the programs and operations of the SEC.
