Hello. I, like you, became an elite investor in GME while casually tugging my balls naked on my couch watching Kenny G shit his pants before Congress. Now I'm a financial genius. Still tugging balls tho.

A split is where the powers that be just multiply all accounts with ease, no hassles on their part. Legit, synthetics, no worries for them. Hit F3 x 4 and you get your shares.

A split dividend means ONLY ENOUGH SHARES WERE ISSUED TO SATISFY THE LEGITIMATE EXISTING SUPPLY OF SHARES!!! That is why cracks are starting to appear with the delivery, sold/rebought shares, etc.

That was lot of words and my brain feels tingly now. I smell toast...
