Hello apes,

I have DRS'd my first paratrooper GME shares with Computershare a few weeks ago and wanted to expedite the letters.

As per guide I tried to call the international Computershare number (0080038233823), however this doesn't seem to work for Ireland.

Trying to call i get ma error saying this number is not available in my region.

Any Irish ape have gone through the same struggles and found a solution?
