We met on a dating website just this time a year ago. I'm a year or two older than you. We were both separated and talked on the phone a few times but lived a little too far apart to meet up easily.

You asked me, "do you ever get on Reddit?" (That's how you found out I was secretly a nerd. ■)

You said you'd "gone down the rabbit hole about all this GameStop stuff" and I was like yeahhhh haha totally... FAKED like I knew what you were talking about because I saw the January news on MSM and thought my fave site Reddit was turning into a group of retards. ■

I had scrolled past Double U Ess B a thousand times on r/all in my time as a Redditor and ignored them all the time. Never got the chance to experience DFV in his peak...

But after you (smart, seemingly financially savvy, very cute redhead) said you were STILL into it, I got into it. Because then I realized it wasn't over, and u/atobitt was on r/all sometime last April, and I clicked into this community and gave it the time of day.

Bought 3 shares, now I am xxx.

And you and I never did talk again.

I can't even remember your real name, but I hope you see this and think it might be you. What a fucking brilliant piece of good luck I had, sending silly Snapchats back and forth with you and listening to you talk about getting weird with GME.

Who told \*you\* about GameStop?
