I'm fuk'n pissed for a second time GME was robbed of M.O.A.S.S. & you should be pissed off too! The answer is simple and always has been right in front of apes the entire time. All we need is 74.1% of the Float to be DRS'd. Plain and simple if you want your tendies, if you like infinite money if you want hedgies to end up in a cell then DRS ■% of your shares. Apes own the float many times over, let's end the game once and for all!
