I followed the tutorial on drsgme to transfer my GME shares from Saxo to IBKR but have gotten nowhere. It has been more than two weeks now.

On IBKR's side, my inbound transfer request is approved but there is a big problem on Saxo's.

The " portfolio transfer" option is no longer available on the Saxo account, so all you can ask for are inbound transfers.

I also contacted the specific email adress at Saxo and they gave me this answer ( link to previous post with Saxo's answer )

So please, if a fellow Europepe has done the same transfer recently, can you tell me exactly how you did it ?
