— ONLY FOR NON-US APES —

I still see a lot of people in the comment section of DRS posts complaining about W8-BEN errors and timeouts and dont get how people still don't know the workaround. This needs to be added to the DRS pinned section ASAP!

To everyone struggling, here's what you gotta do:

In your CS account go to: My Profile > User Preferences > Regional Settings > *select your region here*

Afterwards you are free to go and the W8 form should work just fine.

Now you can go and buy some more GME and DRS them!

Thank you for listening to my TED talk.

Edit: only for non-us apes
