

Title: "GameStop report" is NOT a report, but an investigation targeting events that occurred on GME stock. It is NOT focused on GameStop company at all.

In the official GME documents there is a note saying that GME is collaborating with **SEC on an investigation**, which is NOT against GME. Also we have heard from Gensler some time ago, that the investigation is NOT against the company, therefore I believe he used quote "GameStop report" ... because this "report" is not about GME, but about market events that occurred on GME stock which include fraud and manipulation. This changes my view of Gary behavior ... **he was smiling and quoting "GameStop report", but in reality this "report" (summary of investigation) is not about GME at all**.

EDIT 1: From GameStop recent 10-Q form

ITEM 5. OTHER INFORMATION

On May 26, 2021, we received a request from the Staff of the SEC for the voluntary production of documents and information concerning an SEC investigation into the trading activity in our securities and the securities of other companies. The SEC has since called for additional documents, as a follow up to the initial request. We are in the process of producing the documents and have been and intend to continue cooperating fully with the SEC Staff regarding this matter. **This inquiry is not expected to adversely impact us.**
