// Post edit: student becomes master. I finally figured out how to initiate the outgoing DRS in Lynx.

// Edit 2: transfer confirmed by IBKR! 1 - 3 days until transfer after IBKR confirmation. This means you can copy-paste the text below and it will work. No need to fill out separate forms (like suggested in some other post).

Steps:

1. To keep in mind: Lynx support is close to useless for this. They're basically an extra layer with 0 experience in DRS between you and IBKR.
2. Go to the Lynx website -> Account management. Login. You'll see the dashboard with the chart and "your portfolio" to the left.
3. Scroll all the way to the bottom of the page and press "support" near the bottom (in bold). ^ (Note: I got super confused, because there's also a "support center" at the top. This is NOT the one you need.)
4. Press "message center" (the first button you see on the support page).
5. Press "Inquiries"
6. Press the "Compose" button and click "New Ticket"
7. Click "Funds & Banking" -> "Position Transfers"
8. In the subject enter: *DRS TRANSFER OUT*
9. In the body I entered (make sure you edit the quantity and edit to reflect your situation): `I would like to transfer out my entire GME position to Computershare through DRS. I would like to transfer all xxxxx stocks of GME that I currently hold. I agree to any and all fees this may incur such as position transfer fees. I don't have an account at the transfer agent, the account will be created automatically upon reception of the shares by the transfer agent.`
10. Select your account number from the drop down menu.
11. Submit ticket.

Disclaimer: at the time of writing the DRS transfer has not completed. Use at your own risk. This is not investment advice, do as you please with your share IOU's.

Update: the transfer worked. I have not yet received the confirmation letter in the mail from Computershare, but have called them about expediting the letter by paying something like 45 USD and this was accepted. Keep in mind: if you want to also do this you'll need to keep a credit card handy and give them the credit card details over the phone. It's a US thing :P
