Serious discussion - I specially posted in this sub so I didn't have to deal with all the koolaid drinkers in that other sub.

What if this doesn't force the shorts to close their GME position. What if it's literally impossible to force them to close? What if in some crazy fashion they have been able to unravel their positions over the last year plus? Are you still in? Does your exit strategy change if it doesn't "launch" after the split?
