#If you ever posted for the BOT, please take 1 minute, stop what you're doing, and do this now! :

Please support the new addition to DRSBOT that tracks the number of CS accounts per Ape. This recent update will greatly improve the accuracy of estimating the total DRS share count.

#Simply go back to YOUR CS post and comment:

#!DRSBOT:CSx!

where x is the number of different CS account numbers you have. (Many apes have multiple account numbers). **Important: do this even if you only have 1 account or even if you posted long ago.** Otherwise no data is entered for you and if mostly apes with multiple accounts report, it will skew the CSX data higher, which will lower DRS total shares.

Help spread the word. You can see in the comments section of each purple circle post whether OP of post has yet to report CSX number...Example...<https://imgur.com/a/i4c6t11>. (Thanks to u/hunnybadger101 !)

Special thanks to roid_rage_smurf and team!!

After collecting data from the first **1603** apes that submitted a CSX number, the number of CS accounts per ape is 1.34. This reduces the **126,500** (New high score today) CS accounts based off of the current high score to actually **94,402** unique ape CS accounts. (Maff=126,500/1.34) This is why BOT and CS.net numbers differed from GameStop's earnings release number of 5.2M on October 30!

#94,402 x 159.91 = 15.1M shares DRS'd.

This is the current number of accounts per high score 126,500 adjusted/divided by 1.34 because of apes with more than one account, multiplied by DRSBOT average shares per ape:

If you haven't DRS'd, why not?!? If you haven't DRS'd 100%, why not?!?

#Changing the world is what's at stake!!

BE the change! Don't trust your millions to a broker. Don't give hedgies "one more day". **Please spread the DRS word to the masses outside of Reddit and think hard about if your other investments would be better off in GME.**
