Linked Post Content:

This week 27.6 million GME shares were traded, this is 107.13% of the publicly tradable float *

Total volume traded this week: 27,632,309

GME volume per day:

* Mon: 3,316,234 shares

* Tue: 4,150,803 shares

* Wed: 4,170,343 shares

* Thu: 10,034,940 shares

* Fri: 5,959,989 shares

Source: Webull daily volume data. Yahoo Finance shows comparable volume numbers for the week = 27,622,171 shares traded

***Publicly tradable float = 25,793,673 shares**

Total Shares Outstanding minus institutional ownership, mutual funds, ETFs, insiders and most recent DRS share count provided by GameStop = 25,793,673 shares (source: computershared.net, and GameStop's most recent quarterly report)

So who's selling? Not me, not us. That's for sure! This is unsustainable!
