twas the night before splividend and all through the land

every ape was up stirring, every computer was manned

the apes all took comfort knowing RC was chair

with knowledge that tendies, are now 4 for each share

the stonks were all nestled, DRS'd with such care

soon the mad phone calls, and Marge would be there

the sweet smell of fear on headgie foreheads

all knowing and dreading, their schemes all but dead

their years of corruption , their time is now passed

it's the dawn of the apes all lighting their gas

first calls and then sells, then intense liquidation

we would've played nice but SEC on vacation

so now we countdown to a 4 to 1 split

knowing each headgie needs 4 times his shit

first Marge and then Rico all coming to call

the rats will jump ship, all passing the ball

their assets dissolved, their bank accounts ruined

they'll turn on themselves, while our rocket keeps zoomin

fingers will point, blame laid to the penny

but when the dust settles, alone naked, is Kenny

the big boys will walk, but their scapegoat will fail

they need all our stonks, no jail no sale

when the last is locked up , we'll see what they cost us

these theiving bad bankers will finally face justice

rest well fellow apes, for our ship's almost landed

here comes 4 times the FUD, remain zen, diamondhanded

they'll spread lies and deceite, vitrol seathing with hate

for they know they've been beaten, by retarded apes

It's a good thing GameStop rhymes with Ryan Cohen or the bot wouldn't let me post my poem
