## GameStop

GameStop today announced that it has entered into a new \$500 million global asset-based revolving credit facility with a syndicate of banks. The new five-year ABL Facility, which was oversubscribed, replaces GameStop's existing \$420 million facility due in November 2022. In addition to delivering enhanced liquidity, the new ABL Facility provides for reduced borrowing costs, lighter covenants and more flexibility. Visit <https://investor.gamestop.com/> for more information.
