I started buying GME in Feb of last year so I'm not a new ape and I'm currently DRSing the last of my GME so I'll be 100% DRSed once they make it over. I haven't had time to keep up with everything but I saw some Computershare drama in this subreddit and Superstonk. What is this Computershare drama about and is this something important to keep an eye on? I'm definitely not an expert on stocks and I don't want to get anxious about it if I don't need to be. Thanks
