I want to preface by saying this is 100% speculation, but I was reflecting on DFV after seeing the new Gamestop movie this weekend and this idea popped in to my head. Over the past year, the Roaring Kitty channel has gone completely viral. Even though DFV has stayed silent, whether under gag order or not, he's got to be making a killing out of monetizing his stream right?

I have the following theories:

1. The monthly checks from YouTube have been sufficient to sustain DFV from even have to consider taking profits for any personal reason.
2. The money he's making and continues to make after MSM pointing to him, new Reddit users or this new movie, has allowed him to continually just buy and DRS more shares. How epic would that be?
