Last week artist Paul Jackson sent out a tease on a new collection about to launch. It caught my eye because his teaser was an ape in a spacesuit. He said he was on gag order (hmm?) and couldn't say more. Today, he send out this teaser video, saying his launch date is next Friday, March 4. I can't help but see GME all over this!! Is this the NFT Marketplace launch date!!??

Hype with a tiny bit of speculation...
