Would there be a way to create a bot along the line of the DRS bot but for shares GME that are stuck in UK pensions and US pensions?

We know that there 9 million shares DRS by 125000 individuals.

Imagine how many people have shares stuck in pensions across the world?!

I have x16 stuck in a pension here in the UK.

If we could get a handle on how many are stuck in pensions it could give a clearer picture of how much we truly own.
