I never plan on selling any of my xxx GME for USD and I really hope no ape out there makes this mistake.

Right now I am 3 months behind on my BofA credit card, bills out the wazoo, I owe my Fiancé 6 months for rent. But nope, not selling any DRS'd shares. These golden bricks are going to be the backbone of the new economic structures once we tear down the old guard. I rather punch a clock and hustle (as I have since 16, put myself thru college) before selling Gold for Copper. That's the situation y'all, just so every ape knows clearly.

Thank you for listening to my Tedtalk.
