Hi guys,

I tried to post in the German sub [r/Spielstopp](<https://www.reddit.com/r/Spielstopp/>) before, got instantly downvoted. I think this is valuable information, as Trade Republic is widely spread in Germany, and have not seen it before on any of the gamestop subs. Also tried r/Superstonk, post got instantly deleted.

This is from the NL terms and conditions, as they are provided in English. Says the same in German for the German terms and conditions.

Do I correctly interpret this? Seems pretty clear right?
