CONSUMER PRICE INDEX – JUNE 2022

The Consumer Price Index for All Urban Consumers (CPI-U) increased 1.3 percent in June on a seasonally adjusted basis after rising 1.0 percent in May, the U.S. Bureau of Labor Statistics reported today. Over the last 12 months, the all items index increased 9.1 percent before seasonal adjustment.

The increase was broad-based, with the indexes for gasoline, shelter, and food being the largest contributors. The energy index rose 7.5 percent over the month and contributed nearly half of the all items increase, with the gasoline index rising 11.2 percent and the other major component indexes also rising. The food index rose 1.0 percent in June, as did the food at home index.
