Not entirely sure how to update the bot at this point, but I now have 4,783 shares in my computershare account thanks to Papa Cohen that beautiful bastard! DRS your Shares, lets set history by taking back the entire company...not just the free float lets lock the whole damn thing up so institutions cant even include it in ETFs or other shit products...lets be 100% retail owned and protected. This is a once in a lifetime event...This will never happen again. Everything I have learned since January of 21 has shown me that I will put trust in APEs over any other group in the world. Due Good be the Change we need.... DRS your GME shares!
