I just dove in a micro rabbit hole. Took me 5 minutes to find this information. I recommend everyone to read [this]([https://www.reddit.com/r/DDintoGME/comments/pgr53i/exposing\\_the\\_long\\_con\\_amazon\\_vs\\_basket\\_shorts/](https://www.reddit.com/r/DDintoGME/comments/pgr53i/exposing_the_long_con_amazon_vs_basket_shorts/)) post and read the top comment.

[Stockfetcher](<https://www.stockfetcher.com/sf/symcompare.php?days=180&sym;=gme>) is capable of finding price movements similar to gme's movements. I inserted GME on a 180 day scale, ét voila.

[See any similarities in FTD's?](<https://preview.redd.it/g4kki4w73al71.png?width=666&format;=png&auto;=webp&s;=3477b3a30adad653b10c0df757ab5635baaad593>)

[Citadel involved?](<https://preview.redd.it/01eypsca3al71.png?width=1399&format;=png&auto;=webp&s;=f9c0d52087fa521e18e8edb61ff83763f2602a0>)

Hmmm. Unfavorable exchange rates, high similarity with GME price movement, American fashion retailer and competitor for Amazon, Citadel is involved. Coincidence?

## 2. CenturyLink, Inc stock

On July 15, 2011, [\[36\]](https://en.wikipedia.org/wiki/Lumen_Technologies#cite_note-centurylink1-36) CenturyLink acquired [\[Savvis\]](https://en.wikipedia.org/wiki/Savvis), Inc., a global provider of [\[cloud infrastructure\]](https://en.wikipedia.org/wiki/Cloud_infrastructure) and hosted IT services for \$2 billion, which represented all outstanding shares of Savvis common stock at \$40 per share. [\[32\]](https://en.wikipedia.org/wiki/Lumen_Technologies#cite_note-Wall_Street_Journal-32) [\[46\]](https://en.wikipedia.org/wiki/Lumen_Technologies#cite_note-CenturyLink-Inc-Jul-2011-8-K-46) This acquisition allowed CenturyLink to provide expanded [\[managed hosting\]](https://en.wikipedia.org/wiki/Managed_hosting) and [\[\\*\\*cloud services\\*\\*\]](https://en.wikipedia.org/wiki/Cloud_services). [\[47\]](https://en.wikipedia.org/wiki/Lumen_Technologies#cite_note-47)

CenturyLink manages hosting/cloud services. Now who would profit if this company would go bankrupt? (Ahum Amazon)

## 3. RNLX - **Renalytix PLC**

Renalytix is an artificial intelligence-enabled *in vitro* diagnostics company, focused on **optimizing clinical management of kidney disease** to drive improved patient outcomes and lower healthcare costs. Our goal is to lower healthcare costs and improve patient quality of life by transforming the paradigm for kidney disease risk assessment and clinical management through our KidneyIntelX platform.

[\[Price movement does not look very similar\]](https://preview.redd.it/bd8i90si3al71.png?width=802&format;=png&auto;=webp&s;=d5f1a042af6a09ecea50915604bfb54850be1543)

However, short interest seems to peak around the same January GME peak. No clue if this is connected to GME in anyway besides price movement.

I'm not a wrinkled ape, but this rabbit hole goes deep. All correlated stocks have connections with Citadel in some way. Moreover, all correlated stocks/similar charts can be connected to Amazon, by being competitors of them.

TLDR: Citadel is connected to many charts that have the same price movements as GME the past 180 days. Moreover, those companies can be connected to Amazon by being competitors of Amazon. Take this post with a grain of salt, I have zero wrinkles. However, [Stockfetcher](https://www.stockfetcher.com/sf/symcompare.php?days=180&sym;=gme) is a great tool for apes to make trips down the rabbit hole.
