****3 KEYS TO LOCKING FLOAT:****

1. ■The ****word about DRS**** and GME fundamentals needs to be spread to the masses ****outside of Reddit****. If every ape would just try to reach 1 other person outside of Reddit each day, the float would be locked in no time! Twitter, FB, real life, etc.

2. ■Apes with money tied up in ****other investments could convert those to GME and DRS****. This includes taking the tax hit on IRA if you can. Please consider trading in your "other investment" now. It's the perfect time before the markets tank. Even IF both launch, only GME has a turnaround plan that can launch this rocket. ****IRA DRS new link :****

3. ■Apes with shares in brokers that will not DRS, such as ****Etoro : think about selling and re-buying elsewhere!**** They don't have shares anyway, so selling hurts nothing. Please don't trust your millions to a broker that won't DRS!

****Changing the world is what's at stake!!****

BE the change!! Lock the float
