Each time I have sent shares packing they have arrived after three days. I called Monday again to send the rest of my boys home. I had a debit on my account and was told they would put in a "future order" for once the debit clears (likely Tuesday). So I figured my shares might make it by Friday. I just opened my account and as crazy as it is, the last of my shares (for now) are safe and sound. Less than 48 hrs!! No reason not to DRS in my opinion.

On another note, I also sold some shares of another stock I held with ComputerShare to free up some cash for more GME. The funds were in my bank account in less than 48 hrs! DRS DRS DRS!!!!!! Not financial advice. Not really
