I have a friend who has been working at BCG in Dubai for the past couple of years and has been let go as of 2 days ago. I know this is a "trust me bro" source but we all know that MSM doesn't tell us anything till it's too late such as a crash or companies going bankrupt. For all we know BCG is already bankrupt and closed down but the news hasn't been published.

Not asking you to trust me blindly, just keep your ears open and remember to only focus on buying, holding and DRSing as nothing else matters.

Note: he has no opinion on gme and wasn't a high ranking nor low ranking employee.
