Hi everyone, it's been decided to revise the previous [APEducational](https://www.reddit.com/r/DeepFuckingValue/comments/mps7ug/compilation_of_documentaries_movies_journal/) post by splitting it into two sections: a video section and a written section. As the title states, this compilation will cover documentaries, movies, and video clips that span across all platforms.

There have been numerous instances where educational information has been scrubbed from the internet, region locked, and/or is now only accessed through monetary transactions. Each video will have highlights instead of the summary provided by whatever streaming service and keywords/phrases that stood out.

This list is incomplete and will continue to be revised.
