I live in Ukraine all my life. My city is Odesa. Odesa is a peaceful and multinational city. My native language is Russian. We have been living under attack and bombardment since 24 February. No one could have imagined that Russia would dare invade a neighboring country and now we are getting used to living between the alarms. There are only a few grocery stores and pharmacies in the city. But in spite of that, we all continue to fight and fight to see that we win and that we can help the army and the self-defense forces. I have been at the GME club since January of last year and I know this to endure and wait well. I write it as long as there's electricity in general just to say and share the pain of what's happening.

If anyone would like to help, which is certainly not a request and request, I will leave the number of the purse BINANCE since the banks are closed as well.
