Thanks to [/u/jamesroland17](<https://www.reddit.com/u/jamesroland17/>), I've been getting my Tradingview indicators plugged in. Like he said in his posts about BoomTrader Pro; green dots going through a red cloud is bullish. The yellow line dropping down and staying flat (as opposed to coming straight back up) in conjunction with the dots and cloud means GME goes BOOM.

When you add a 2nd indicator (SSL Hybrid), it also gives the buy signal.

[Yellow ■ is a buy signal.](<https://preview.redd.it/s5itg1ca29h81.png?width=1911&format;=png&auto;=webp&s;=0990eb8118a9c25f6da4f98aa0e0a65a71b9fa79>)

tl;dr: Pretty color make stock go boom
