I marked this as Speculation, because speculation turns me on.

A lot of stuff going on around the Pyth price findings. It all started by a post that got hot quick by u/TheDude0007 [Proof Of Price Suppression and Its Source - And a few other Things]([https://www.reddit.com/r/Superstonk/comments/p3eye1/proof\\_of\\_price\\_suppression\\_and\\_its\\_source\\_and\\_a/](https://www.reddit.com/r/Superstonk/comments/p3eye1/proof_of_price_suppression_and_its_source_and_a/))

I have noticed some "coincidences" with whom is involved and wanted to get more eyes on it. Some of the links will be to the post on this platform that catch the headline, I am doing this to avoid linking the articles directly because I believe in not feeding clickbait, relevant or not. Try to bare with me this all is new, and has hit me in the face.

Ok first off.. WUT MEAN HOW GME?

Well the base of this is Jump Trading, LLC, don't know them? I didn't either, which is sad as I will point out some Apes have tried to bring the up a couple of times. So first thing first of course [Jump Trading](<https://www.jumptrading.com/>), hmm Chicago based you say? Time to search Reddit! First thing that caught my eye was a post 4 moths ago by u/Lmnbux7969 [DTCC says as of APRIL 19th JUMP TRADING LLC is activating an account? Steve Waldron for more info....worked as head of US operations for CITADEL for 9 YEARS?! Wrinkle brains, what does this mean? Is Jump going to be the new citadel?]([https://www.reddit.com/r/Superstonk/comments/mqrcox/dtcc\\_says\\_as\\_of\\_april\\_19th\\_jump\\_trading\\_llc\\_is/](https://www.reddit.com/r/Superstonk/comments/mqrcox/dtcc_says_as_of_april_19th_jump_trading_llc_is/))

Ok maybe a thread, lets keep digging in the Ape Archives, the next thing about Jump Trading caught my eye was a post by u/Kintsugi2 [I Compiled And Compared DTCC Member List Changes]([https://www.reddit.com/r/Superstonk/comments/nxh9v4/i\\_compiled\\_and\\_compared\\_dtcc\\_member\\_list\\_changes/](https://www.reddit.com/r/Superstonk/comments/nxh9v4/i_compiled_and_compared_dtcc_member_list_changes/)). Ok you have my attention now, first on their list on new DTCC members is Jump Trading, LLC. They go into how Jump has " \*\*special arrangements they have with exchanges and dark pools\*\*" They also outline some wonderful violations, great post!

Interesting, I'm full fledged geek mode now. Next post on the search that catches my eye is linking to an article, but the headline tells the story, thanks to u/elitistrhombus. ["Jump has lined up a long list of Wall Street firms (including IEX and Virtu Financial) to supply stock market data into Pyth..."]([https://www.reddit.com/r/Superstonk/comments/p22abw/jump\\_has\\_lined\\_up\\_a\\_long\\_list\\_of\\_wall\\_street/](https://www.reddit.com/r/Superstonk/comments/p22abw/jump_has_lined_up_a_long_list_of_wall_street/)) . Now this I found very interesting for two reasons.

1. Jump whom is run by Citadel peeps has lined up Virtu, famously non Ape, to SUPPLY DATA into Pyth. When you look at Pyth Data, I'm sure you all already know, GME is by far the strangest of all tickers available. Movie stock has some similar strangeness but nothing to the degree of GME. Incase some don't know or don't remember here is a shot of some Pyth data, which on the surface anyway, looks to be coming from Virtu. If I was to put my tin foil hat on I would speculate that Jump may also provide data to this from an affiliates private pool. Cough \\*Citadel Connect\\* Cough

[GME Pyth Data on a 1W Scale](<https://preview.redd.it/fe1lcvzld9h71.png?width=2514&format=png&auto=webp&s=ef20f995f9d6abe96309bbd76ecc14fc79a4701d>)

2. IEX seems on the surface to also feed data. Interesting.

Sticking with the lets keep it easy theme I continued on my searching the Ape Archives, this time Virtu is on my mind. First obvious choice from my searching is a post by u/Longjumping\_College [Virtu Financial discussion]([https://www.reddit.com/r/Superstonk/comments/o8xf9g/virtu\\_financial\\_discussion/](https://www.reddit.com/r/Superstonk/comments/o8xf9g/virtu_financial_discussion/)). This was a great post, they go into how Virtu is known for spoofing, and using private pools to flip the bid and ask.

They have even been in trouble for it before! Oh and in the same post they mention a relationship with Pyth for, you guessed it data feeding. Here is a [DD]([https://www.reddit.com/r/wallstreetbets/comments/oi1xl9/virtu\\_financial\\_virt\\_long\\_the\\_yolocoaster/](https://www.reddit.com/r/wallstreetbets/comments/oi1xl9/virtu_financial_virt_long_the_yolocoaster/)) showing the bullish case on Virtu, which points out they are bullish, in part, because of the partnership with Pyth. Can't make this shit up.

Geek-On is my tunnel vision now, thank goodness I have the Ape Archives, thanks u/itdumbass [Good old-fashioned radio employed as the fastest link between CME and various exchanges; article from Bloomberg in 2018 "The company behind this project is New Line Networks LLC, a joint venture of Chicago-based Jump Trading LLC and New York-based Virtu Financial Inc."]([https://www.reddit.com/r/Superstonk/comments/o93ha5/good\\_oldfashioned\\_radio\\_employed\\_as\\_the\\_fastest/](https://www.reddit.com/r/Superstonk/comments/o93ha5/good_oldfashioned_radio_employed_as_the_fastest/)) . Ok, another thread..Need to look into New Line Networks LLC.

**\*\*Edit 1\*\*:** [New Line Networks LLC](<http://www.newlinenet.com/>)

World Class Wireless, LLC and Geodesic Networks, LLC (a KCG Holdings, Inc. subsidiary) have joined forces to create the best wireless services for the global financial community.

[New Line Networks](<http://newlinenet.com/>) will explore opportunities to leverage infrastructure investment, including re-selling network bandwidth to industry participants and third party vendors. Through this venture, New Line Networks will bring together complementary network and communication infrastructure while simultaneously providing additional data transmission bandwidth to the marketplace.

**\*\*Edit 2\*\*** u/Matonreddit pointed out that the director of Virtu is Co-Creator of Greyscale. They pointed to a post by u/natep001001 [Exposing the crypto manipulation- Digital Currency Group (DCG)]([https://www.reddit.com/r/Superstonk/comments/op4ilt/exposing\\_the\\_crypto\\_manipulation\\_digital\\_currency/?utm\\_source=share&utm\\_medium=ios\\_app&utm\\_name=iossmf](https://www.reddit.com/r/Superstonk/comments/op4ilt/exposing_the_crypto_manipulation_digital_currency/?utm_source=share&utm_medium=ios_app&utm_name=iossmf))

KCG Holdings, Inc. Seems to be Virtu and Knight Capital, basically. [KCG Holdings, Inc.](<https://fintel.io/s/us/kcg>) . [KCG Holdings, Inc 8-K (sec.gov)](<https://www.sec.gov/Archives/edgar/data/1569391/000119312513280019/d562427d8k.htm>)

I already know the responses coming, the data isn't reliable, its in testing, it could be an ape in disguise faking the price for lols. All valid and what not, I don't care, I'm simply bringing to light whom is involved in where the data, on the surface, looks like its coming from. I guess its another "coincidence", or "glitch", coming from the bad actors on the other side of the GME trade.
