Is_self: True

So heads-up:

You all already know it's coming, but prepare for the ultimate shitshow of FUD to get fed into the hopper for these next couple of weeks.

My wife's main gig is entertainment journalism (normally your regular checkout-line tabloid fare: reality show coverage, risque bikini shots, celebrity hookups and breakups, etc.) Out of the blue, today her group was tasked with an all-hands-on-deck assignment on market manipulation by certain key celebrities, for a significant premium. Elon Musk and his effect on BTC/DOGE were significant topics.

Imagine waiting in line at the grocery store and the cover of *People* magazine was about crypto.

That's all. Just a heads-up. I'll be back in a bit to discuss.
