I know there are people out there that felt disappointed today. We had alot of hype around this date expecting a split/dividend announcement. Don't just scream fud at this post because there are people out there that need this consolidation. It gets extremely difficult to keep sane when you see the goal post getting drop kicked half a mile away Everytime we reach it.

So here's what I think happened

Every other time we've been rug pulled like this has been by the bad players turning off buttons, halts, etc. So it's extremely unusual to see something like this from GameStop themselves.

We've followed RC's lead for this long and he never let us down, He is a man of his word so don't look at this as a let down and a chance that there might be no split but instead see it as what it is, a fakeout to confuse the fuck out of the shorts. ■

In conclusion hang in there apes, I know how difficult life can get at times. As always tomorrow is the day■
