Gamestop. I will hold this motherfucking stock forever. It's never going to zero but bring that shit on. Won't happen. I was previously Aftamath42 ... lost my log in info. I used to say, fucking telephone numbers per share, or fuck right off. And I'll say it again. These shares I hodl, you will literally have to take them from my dead hands because as long as I'm alive, these hands aren't dead.... they are fucking diamonds. My wife used to ask my years ago, why aren't we in movie stock? Do they have Ryan? Fuck no. DFV exercise his movie calls? Fuck no. The game has been rigged for too long and finally attention is coming to it. We know they're short, we know they haven't covered. We know they abuse dark pools and anything else they can. Stocks should be fair and they aren't. All is good; we have each other, we have our diamond hands, we have Ryan, and we have a company thats worth well more than 150\$ on a bad day. The greatest sqze is coming. God speed. Shares will be with telephone numbers - don't settle.
