****Its an repost from my post on an other sub since i just got approved by mods.****

****If its against the rules i will delete.****

Due to high demand, I am publishing both the scripts and the data to generate the following graphs.

The raw data (one minute: open, close, high, low, volume) of the Russel 1000 tickers can be downloaded from yahoo finance using the following script:

<https://pastebin.com/spHYE5Wi>

The Russell 1000 ticker names: <https://stockmarketmba.com/stocksintherussell1000.php>

The data was analyzed with the following script:

<https://pastebin.com/KMhm3EW0>

The data as csv: <https://pastebin.com/AZSDswvq>

Unfortunately, I don't have time to give a detailed explanation at the moment.

Large cap is in the color black (> 1e10 \$)

Mid cap is in green (< 1e10\$ and > 2e9 \$)

Small cap is blue (< 2e9 \$)

Here the plots:
