I've read in some of the DRS guides that during the process you have to choose First In First Out or Last In First Out etc. for your shares when you go to DRS which makes me think this essentially resets your timeline for owning the shares. As I'm close to the year now of owning most of my shares this is the only thing making me hesitant to registering the rest of my shares. Are my concerns valid here or is there another explanation for having to choose FIFO or LIFO etc. when DRS'ing your GME shares?
