Hello there I wanted to update on some things that I found out on \$HKD and \$AMTD.

Both HKD and AMTD are in the same building.

[<https://www.amtdigital.net>](<https://www.amtdigital.net>) (at the very bottom right)

[<https://www.amtdinc.com>](<https://www.amtdinc.com>) (again very bottom right) 41 Connaught Road, Hong Kong .

One is 25th floor the other is in 23th floor.

Let's see where this is.

[Hmmmmm]([https://preview.redd.it/uhhetfk9xvg91.jpg?width=1080&format=jpg&auto=compress&strip\\_metadata=0](https://preview.redd.it/uhhetfk9xvg91.jpg?width=1080&format=jpg&auto=compress&strip_metadata=0))

Citadel just lurking from across the road. Little bit coincidental again if you ask me. But I couldn't find any link yet. The floors you can rent from:

HKD/AMTD: [<https://property.jll.com.hk/en/office-lease/hong-kong/central/nexus-building-hkg-p-000cj6>](<https://property.jll.com.hk/en/office-lease/hong-kong/central/nexus-building-hkg-p-000cj6>)

Citadel: [<https://property.jll.com.hk/en/office-lease/hong-kong/central/two-international-finance-centre-hkg-p-000jpa>](<https://property.jll.com.hk/en/office-lease/hong-kong/central/two-international-finance-centre-hkg-p-000jpa>)

If anyone can get more information out of this it would be great. I still believe this has a correlation and could potentially destroy the critical margin theory due to them having made enough money to cover their margin requirements on gme and other basket stocks.
